ABOUT:

At Flexible Training Solutions, we offer a **targeted Mini Skill Set** designed for individuals looking to **enhance** their career as **professional** drivers. This streamlined training program covers three essential units that provide practical, **industry-relevant skills** tailored to the demands of today's transport sector.

Through this **Mini Skill Set**, students will gain practical knowledge in key areas such as transport safety regulations under the **Chain of Responsibility**, **Fatigue Management** strategies to promote safe driving, and **Work Health and Safety** procedures essential for reducing on-the-road risks. These units ensure you are prepared for the realities of the job, **equipping** you with the **knowledge** and **confidence** to operate safely and efficiently.

By completing this program, you'll not only gain **valuable insights** into how to stay compliant with legal transport obligations, but also learn how to **improve your overall driving performance**. This training empowers drivers to **manage risks effectively, prevent accidents**, and maintain both **personal and public safety**. Whether you're just starting out, looking to upskill, or simply staying on top of your compliance requirements this Skill Set provides a pathway to a safer, more successful driving career, opening doors to long-term opportunities in the transport industry.

TLIF0025

TLIF0025 - Follow work health and safety procedures

Drivers face various safety risks both on the road and during vehicle loading/unloading. This unit focuses on understanding and applying work health and safety (WHS) procedures, helping drivers mitigate risks, adhere to safety standards, and maintain a safe work environment, whether on-site or in transit.

TLIF2010

TLIF2010 - Apply fatigue management strategies

Managing fatigue is crucial for drivers, as it directly affects their ability to drive safely. This unit equips drivers with strategies to recognise and manage fatigue. It ensures they remain alert during both short and long hauls. Implementing these strategies helps prevent accidents caused by tiredness, ensuring both personal and public safety on the road.

COST:

The Driver Mini Skill Set, priced at **\$670** is designed to enhance your safety and compliance on the road, with the convenience of 100% online delivery.

Stay safe, stay compliant, and advance your driving career—all from the comfort of your home.

TLIF0009

TLIF0009 - Ensure the safety of transport activities (Chain of Responsibility)

The Chain of Responsibility is vital for ensuring that all parties involved in transport operations, including drivers, comply with safety regulations. This unit teaches drivers their legal obligations in maintaining safe transport activities, reducing the risk of accidents, and ensuring compliance with road safety laws and logistics protocols.
