

OVERVIEW:

Advance your career in logistics with the **Diploma of Logistics (TLI50224)**, designed for experienced professionals seeking to enhance their skills in transport and logistics planning, supply chain management, and operations. This course equips you with the expertise to manage risk, oversee supply chain operations, and ensure compliance with industry regulations.

The transport and logistics industry is experiencing strong growth, with increasing demand for skilled professionals in various sectors. This nationally recognized qualification will prepare you for leadership roles and provide practical knowledge to succeed in this dynamic industry.

DESCRIPTION

This Diploma provides the skills and knowledge required for integrated logistics management. Participants will apply expertise in logistics operations, with the ability to make informed decisions on equipment, services, and resource allocation. The course includes participation in strategic planning, project evaluation, and leadership within a logistics environment.

This qualification fosters autonomy, responsibility, and technical expertise, equipping graduates to oversee and optimize supply chain processes effectively.

LEARNING OUTCOMES

Upon successful completion of this course, you will be able to:

- Develop and maintain operational procedures and supply chains
- Understand chain of responsibility regulations
- Manage risk, emergencies, and employee relations
- Oversee transport and distribution strategies
- Apply advanced problem-solving techniques in logistics management
- Lead teams and coordinate strategic initiatives

COURSE STRUCTURE:

The **Diploma of Logistics** (TLI50224) consists of 15 units of competency, including:

- 2 core units
 - TLIF0009 – Ensure the safety of transport activities (Chain of Responsibility)
 - TLIL0001 – Apply effective logistics management principles
- 13 elective units tailored to industry needs

Core	TLIF5020	Develop and maintain operational procedures for transport and logistics enterprises
Core	TLIF0080	Implement and monitor the safety duties of transport activities (Chain of Responsibility)
Tech	TLIX4028	Apply knowledge of logistics
General	TLIP0007	Facilitate and capitalise on change in the workplace
General	BSBSTR402	Implement continuous improvement
General	BSBPMG430	Undertake project work
Tech	TLIA5058	Manage facility and inventory requirements
Tech	BSBWHS521	Ensure a safe workplace for a work area
Tech	TLIL5019	Implement and monitor transport logistics
Tech	TLIP5008	Manage a transport and logistics business unit
Tech	BSBPRC504	Manage a supply chain
Tech	TLIR5014	Manage suppliers
General	BSBTWK502	Manage team effectiveness
General	BSBOPS504	Manage business risk
General	BSBSTR502	Facilitate continuous improvement

DELIVERY:

- *Online Delivery:* Study at your own pace with access to high-quality learning materials and trainer support.
- *Cluster-Based Approach:* Units are grouped into clusters to simplify learning, making content more accessible and practical.
- *Trainer Support:* Our experienced trainers are available to provide guidance via email, phone, and video consultations.

WHY CHOOSE US?

- Industry-relevant curriculum aligned with real-world applications
- Flexible online study options to suit your schedule
- Dedicated trainer support to help you succeed
