

Certificate III in Supply Chain Operations

Overview

The newly created Certificate III in Supply Chain Operations is designed to combine Warehousing Operations and Logistics qualifications from the previous package and includes an optional specialisation in either of those streams.

Individuals at this level might be expected to organise receipt, storage and despatch of goods, prepare documents for the workplace, use inventory systems, apply relevant WHS procedures including manual handling, conduct some customer service and complete documentation for receipt or despatch.

Delivery and Structure

Delivery underpins our philosophy that work is the learning and learning is the work. We deliver a combination of formal training sessions and mentoring. We utilise a mix of on-the-job observation and questioning, and workplace-based projects throughout our assessment tasks.

Participants are encouraged to challenge their existing knowledge and extend their boundaries whilst they expand their skill base.

To successfully attain the TLI30319 Certificate III in Supply Chain Operations, students are required to complete a total of fourteen (14) units of competency, comprising of either:

TLI30319 Certificate III in Supply Chain Operations

Duration:

This course is typically delivered over 12-24 months

Projects:

We believe that to get the most out of a program, training should be applicable to a trainee's job role. Projects directly impact and relate to your business.

Workplace mentors:

A workplace mentor will be assigned from within your business. This ensures that knowledge and skills are reinforced throughout the program.

This nationally recognised qualification is delivered by Flexible Training Solutions RTOID 6333. It provides skills and knowledge to the industry standard. We actively tailor training for people from diverse backgrounds, including those with disabilities, and encourage all to apply.
