

Certificate III in Business

Overview

The revised Certificate III in Business combines several previous qualifications such as general Business, Customer Engagement and Administration into one qualification where parts can be used to build the most appropriate qualification. A Certificate III in Business can be delivered as a general qualification or with a specialisation. We are currently able to deliver Business, Business (Customer Engagement) and Business (Administration) streams.

Individuals undertaking the course might be working in or working towards a broad set of roles requiring technology and business skills such as general office support, customer service agents, or clerical workers.

Delivery and Structure

Delivery underpins our philosophy that work is the learning and learning is the work. We deliver a combination of formal training sessions and mentoring. We utilise a mix of on-the-job observation and questioning, and workplace-based projects throughout our assessment tasks.

Participants are encouraged to challenge their existing knowledge and extend their boundaries whilst they expand their skill base.

To successfully attain the BSB30120 Certificate III in Business, students are required to complete a total of thirteen (13) units of competency, comprising of either:
