

Certificate IV in Business

Overview

The revised Certificate IV in Business combines several previous qualifications such as general Business, Customer Engagement and Administration into one qualification where parts can be used to build the most appropriate qualification. A Certificate IV in Business can be delivered as a general qualification or with a specialisation. We are currently able to deliver general Business, Business (Leadership), Business (Operations) and Business (Administration) streams.

Individuals undertaking the course might be working in or working towards a broad set of roles involving complex administrative or operational tasks requiring analytical and leadership skills. They are likely working in a team lead, supervisory or middle-Management role.

Delivery and Structure

Delivery underpins our philosophy that work is the learning and learning is the work. We deliver a combination of formal training sessions and mentoring. We utilise a mix of on-the-job observation and questioning, and workplace-based projects throughout our assessment tasks.

Participants are encouraged to challenge their existing knowledge and extend their boundaries whilst they expand their skill base.

To successfully attain the BSB40120 Certificate IV in Business, students are required to complete a total of twelve (12) units of competency, comprising of either:
