Certificate II in Supply Chain Operations

Overview

The recently created Certificate II in Supply Chain Operations is designed to combine Warehousing Operations and Logistics qualifications from the previous package and includes an optional specialisation in either of those streams.

Certificate II is the level that many operators undertake at the start of their Supply Chain career. It covers areas such as working safely, manual handling, Chain of Responsibility, pick/pack, and an overview the Supply Chain industry as a whole, including career pathways.

Delivery and Structure

Delivery underpins our philosophy that work is the learning and learning is the work. We deliver a combination of formal training sessions and mentoring. We utilise a mix of on-the-job observation and questioning, and workplace-based projects throughout our assessment tasks.

Participants are encouraged to challenge their existing knowledge and extend their boundaries whilst they expand their skill base.

To successfully attain the TLI20421 Certificate II in Supply Chain Operations, students are required to complete a total of fourteen (14) units of competency, comprising of:

Certificate II in Supply Chain Operations

- 5 core units
- 9 units from Group C
- up to 3 Imported units*

TLI20421 Certificate II in Supply Chain Operations

*Supply Chain Operations courses may contain up to 3 imported electives from another nationally-recognised course where it is relevant to job role and that FTS is able to deliver on.

Duration:

This course is typically delivered over 9-18 months

Projects:

We believe that to get the most out of a training program, training should be applicable to the trainee's job role. Projects directly impact and relate to your business

Workplace mentors:

A workplace mentor will be assigned from within your business. This ensures that knowledge and skills are reinforced throughout the program.
